

TIMELESS™

SUPER PREMIUM INTERIOR

DURABILITY AND BEAUTY UNITE IN A STROKE OF GENIUS

Surpassing existing premium and ceramic paints, *Manor Hall Timeless* combines all of the features required to deliver superior performance:

- Exceptional Stain Resistance
- High Washability
- Burnish Resistance
- Antimicrobial Formula

Our cross-linking formulation enhances *Manor Hall Timeless*' ability to deliver beauty for a lifetime. Guaranteed.

PPG Glass, Coatings and Paint for Sustainable Design

Environmental sustainability is the most powerful trend to influence building design in a generation. That's why PPG has developed EcoLogical Building Solutions, an exclusive collection of select products designed to help you construct "greener" spaces. *Manor Hall Timeless* meets these specifications.

MATTE

BEAUTY FOR A LIFETIME. GUARANTEED.

Pittsburgh Paints is so confident in the quality and performance of *Manor Hall Timeless* that we guarantee satisfaction with a Limited Lifetime Warranty (see label for details). See for yourself why *Timeless* offers Beauty for a Lifetime. Guaranteed.

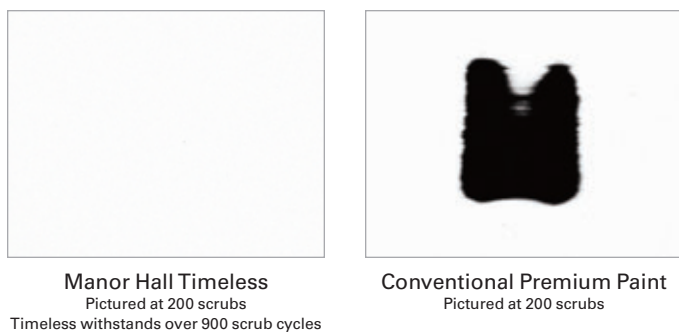

SUPERIOR STAIN RESISTANCE

Most paints require extensive and sometimes damaging scrubbing to remove surface dirt. With *Manor Hall Timeless*, most stains wipe away with plain soap and water. Even the toughest stains release with common household cleaners.

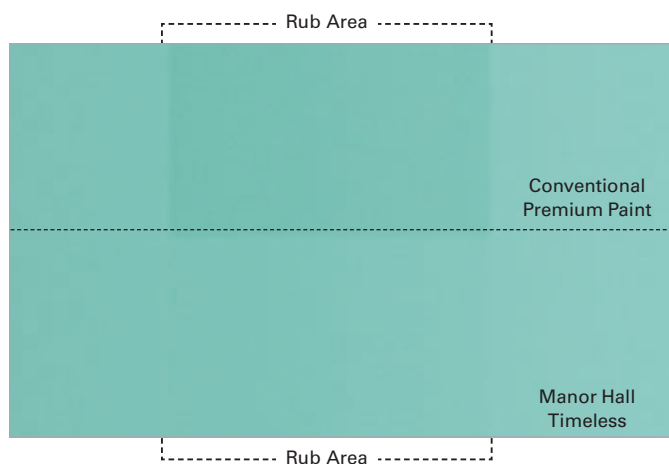

HIGHLY WASHABLE

With many conventional paints, a simple washing will remove the paint surface with the stain. This is called a self-sacrificing coating. The result is a finish that disappears with repeated cleaning, leaving bare spots behind. *Timeless* will withstand repeated scrubbing, releasing the stain while leaving the beautiful finish intact. No paint on the market today can match the toughness of *Timeless*.

BURNISH RESISTANT FINISH

Burnishing or shiny spots develop on many conventional paint surfaces when rubbed. *Manor Hall Timeless*' advanced proprietary formulation eliminates the problem of burnishing.

Note the different appearance of the conventional premium paint after rubbing, while Timeless maintains an even appearance.

MOLD AND MILDEW RESISTANT

Mold and mildew are two of the main contributors to household pollutants and oftentimes the tiny microbes that grow on painted surfaces cannot be seen. The antimicrobial additives in *Manor Hall Timeless* help to reduce mold and mildew in your home by making the paint surface inhospitable for their growth.
